About Me

I am a dedicated and outgoing person who can easily adapt with people. I am open-minded and can learn new things quickly. I can be a bit shy but will open up easily once I get to know people and I always try my best to complete my works on time.

Front-end : HTML, CSS

Back-end : C, Java

Languages known

- ENGLISH
- TAMIL
- KOREAN

Internships

Lets grow more

Web development

February 2022–March 2022.

The internship was for a month where we were given tasks based on html, css, javascript and reactjs. It was a short internship period but I learned a lot about about how web applications are made.

Projects

Hospital management system

Using c

Todo list web app

Using html, css, javascript

Calculator web app

Using html, css, javascript, reactjs

Portfolio website of mine

Using html, css
